16. NORMA MARGARET LOUISA⁷ HARRIS (*FREDERICK JOHN*⁶, *CHARLES STREATER*⁵, *JOHN STANDEN*⁴, *JOHN FRANCIS*³, *EDWARD*², *RICHARD*¹) was born 12 Jan 1930 in Alexandra Nursing Home, 28 Hanson Street, Newtown, Wellington, and died 11 Dec 2011 in St Andrews Hospital, Glendowie, Auckland. She married EDWIN (EDDIE) LISTER HANDRICKS 31 Oct 1953 in 2:00pm St Davids Church, Naenae, Wellington, son of NORMAN HANDRICKS and RUBY STAGGARD. He was born 05 Mar 1926 in Lister Hospital, Riverside Road, Gisborne, and died 01 May 2011 in Middlemore Hospital, Auckland.

Notes for NORMA MARGARET LOUISA HARRIS:

Norma Margaret ouisa Harris was born 12 January 1930 at the Alexander Nursing Home, Wellington to Frederick Harris and Margaret Valentine. Her mother was the daughter of Jewish tailors from the east end of London and her father was in the merchant navy, the son of a London fishmonger and an Italian opera singer. Norma grew up in Mitcheltown, Te Aro, Wellington and lived in an home next to the old schoolhouse at the very end of the now famous street Holloway Rd.

Norma was a sickly child had skinny legs but, even then, had an artistic flair. Because of her poor health, she left school early to become a dancer in the hope that the physical exercise of dance would contribute to better health. She trained in ballet and dance with the Dorothy Daniels Dance Studio in Wellington and progressed with distinction through the grades until she qualified in grade 8 performance, the pinnacle of dancing achievement. Norma appeared in numerous stage productions for a number of years. She travelled extensively throughout NZ.

She won awards for her performance and very soon after she left school (at an early age) and began "treading the boards". She toured extensively and performed in countless productions in a stage career that spanned almost 20 years. Norma had a particular and somewhat cheeky character that could conjure fantasy and she put this into her performance and it became a mainstay of her character throughout life.

In her early twenties she met Edwin (Eddie) Lister Handricks. They met on stage during a performance of "The Boyfriend" – got engaged during a performance of "The Girlfriend" and were married, without a hint of irony, during the performance run of "The Merry Widow". Eddie located and purchased their first home, 9 Farringdon St, Glen Innes, and not too soon after their first child and son, Ian Lister handricks was born in the front room of the new house. Their second child and daughter Lynette followed a couple of years later and eventually after a number of miscarriages and battles with anemia, a third child, Glenn, was born

Norma always took great care of her appearance, and was considered by most to be up with the latest fashions – how we came to live in an olive green house, with lime green lounge suite, alternating pastel pink and blue kitchen cupboard doors and khaki floor tiles – obviously had nothing to do with Mum's colour sense! The family grew and all three children married and produced in all eight grandchildren. She doted on them all and they were always guaranteed of her exquisitely wrapped gifts at birthdays and xmas. The first grandchild and only grandson was Daniel Logan Handricks, Ian's son.

Norma's second great career was dressmaking and in particular, costume, fairy and fantasy outfits. She had a special talent here and her children were guinea pigs for her early endeavours. Every year they were decked out in costumes for xmas functions and parties as either scullery maids, cooks, quasimodo, witches – you name it she could create it! Norma started her own business, "Wandering Star", making and supplying the fairy shop with all manner of costumes, wings, wands and paraphernalia.

The urge to dance never left Norma. She began again later in life performing ballet in recital and retained her poise and fascination with this art to the end. Through dance and an enduring friendship of more than 50 years ago, she met Pauline Chamberlain. Pauline also shared the passion of dance - and even tried, it may noted - without success - to

teach Norma's son, Ian, how to ballroom dance. In her later years Norma continued to sew and craft her fabulous creations – and enjoyed nothing more than a cup of tea and chocolate maccaroon. She had a ethreal spirit, enjoyed doing cryptic crosswords, taught her children to have a sense of fun and to approach situations with a lighthearted and humorous demeanor.

Norma's marriage to Eddie was not a happy one. Eddie was a difficult man who had a temper, was short-fused and was somewhat disengaged with the family. Although they were married for almost 60 years, Norma asked Eddie to leave after 53 years of them being together. It was an acrimonious split and they really never engaged in dialogue much after that time. Norma moved into an apartment and fared for herself (with Ian and Lynette's support) to the end.

In July 2011 Norma was advised that she was suffering from terminal Leukemia and that she would only have a limited time left. She passed away at St Andrew's Hospital, Glendowie, Auckland on 11 Dec 2011 in her 82nd year. Her funeral was held at St Paul's Church, St Heliers and she was laid to rest at Purewa Cemetery, in Meadowbank, Auckland.

Notes for EDWIN (EDDIE) LISTER HANDRICKS:

Edwin was born in Gisborne and got his middle name, "Lister" from the name of the hospital (a former brothel) in Gisborne where he was born. Ruby, his mother, was suffering from peritonitis at the time of his birth and in thanks for the staff at the hospital managing to save both mother and child, Ruby name him "Lister". Ian, Eddie's son, also was named Lister.

Edwin attended Seddon Memorial Technical College and later completed an apprenticeship as an electrician. He served during World War II in the Air Force as a ground technician and has had a life long interest in the theatre, especially as electrical back-stage crew with His Majesty's Theatre in Auckland and a number of other theatres throughout NZ. He started his electrical career with ECC (Electrical Construction Co.) and later went onto join the Auckland Electric Power Board becoming Chief Inspector for a number of years. After Norma and he married they moved to thier first home at 9 Farringdon St, Glen Innes where the three children were raised. They then moved to 9 Dale Cres, Pakuranga and onto Prince Regent Dr, Howick. They then moved to Papamoa. Eddie was an active member of the Institute of Electricians (and for a time President of the Institute) and had a pivitol role in the writing of the electrical wiring regulations. In his retirement he was a Taxi driver.

Eddie was a heavy smoker all his life and this affected his health. In later years he suffered from poor circulation and was admitted to hospital to undergo a triple A bypass operation, arteialgram and other procedures. Unfortunately he had his right leg amputated and in his last weeks the other leg was considered for amputation - however on the 1st May 2011 he passed away before this operation happened.

Eddie was a diifcult man to live with. He had a temper and could be gruff and moody. He found it difficult to engage with his children and grandchildren. 3 years before he pased away, he and Norma split and went their separate ways. Eddie moved from boarding house to B&B and finally settled in a Presbyterian Home for the elderly. The two of them never really had much dialogue after the split. It was a difficult and often unhappy marriage.

In his earlier years, Eddie had and excellent head for mathematics and would hold an argument firmly. In later years he was forgetful, cranky, argumentative and sarcastic. He slept in late most weekends and was known to doze off frequently during stage performances at the theatre. Never successful with vehicles, virtually every car he owned broke down, cost a fortune to keep on the road or were grossly underpowered for the tasks required of them - he pulled a 10' 6" caravan, the five members of the family and the luggage around New Zealand with a side-valve 1952 10 HP Hillman Minx car!

He was certainly a character and possessed a somewhat skewed sense of humour. He was never really happy with his life and unfortunately left a legacy of unhappiness with his family.

Notes for IAN LISTER HANDRICKS:

Ian was born at home, 9 Farringdon St., Glen Innes, Auckland on the 6th July 1955. He attended Glen Innes Primary and Intermediate Schools and then onto Selwyn College where he completed 5 years of study towards entry to Auckland University. He began study towards a Bachelor of Engineering Degree. He taught music both privately and nightschool classes at Edgewater College, was for many years, a Flyman and Stage Hand at His Majesty's Theatre, apprentice baker at Klisser's Farmhouse Bakery but in 1973 he joined Hirst Contact Lens as a contact lens technician. He has been with that company ever since.

In 1977 Ian met Jocelyn and they were engaged very soon after. The marriage was planned for New Years' Eve, but had to be postponed because Ian contracted Encephalitis on Christmas Eve. The wedding took place in Feb 1978 in Dargaville Anglican Church and was well supported by the extended family.

Ian began 40 years ago as a contact lens technician after a period of study towards an engineering degree majoring in mathematics and physics. He concentrated on lens design, mathematics of lens design, developing production and marketing methods for the laboratory and eventually computerisation of the design and production of contact lenses. Ian completed a number of advanced management, sales and marketing courses in New Zealand and the United Kingdom.

In 1979 he moved to the United Kingdom to establish and develop a large research, development and production company that introduced leading edge CNC (Computer Numerically Controlled) machining equipment for contact lens manufacture. He headed both the Computer Development Team and the International Sales and Marketing force. During this period Ian traveled extensively selling, establishing new businesses and developing and servicing computer-based technology. A number of his inventions for the optical industry were awarded patents, many of his lens constructions are now industry standard designs.

While in the UK, Ian developed Practice Management software for Optometry and designed, built and established a number of pioneering lens production laboratories throughout Europe, USA and Asia.

In 1989 Ian returned to New Zealand on an invitation to rejoin the Hirstlens group and immediately prepared a business plan for the future of the company. In 1990 he purchased the company expanded it rapidly and began the development of Beyond Imagination, a high technology unit for advancing photo-digital imaging as a business concept. During this period, Ian masterminded a substantial improvement in the marketing and promotion of contact lenses via innovative exhibitions.

In 1993 Ian designed and patented a highly successful bifocal contact lens and was a key member of the engineering team that built the tooling and multi-axis lathing systems to produce the lens. This development attracted international press and television coverage.

The bifocal design and subsequent engineering design was awarded a Foundation for Research, Science and Technology grant.

On 18th March 2012 Ian was awarded an Honorary Membership of the Cornea and Contact lens Society in recognition of outstanding contribution to contact lens practice in New Zealand. It was given for his contribution in original lens design, patents, manufacturing inventions, substantial contributions to the mathematics of optical design, clinical contributions in lens design for astigmatism, keratoconus, post-natal aphakia, bifocal and multifocal contact lenses,

production methodology, the development of groundbreaking CNC manufacturing optics, surface engineering, materials research, robotics, practice management software and for the introduction of computers into the whole New Zealand optometry market.

In 1994 he began work on innovative software and business model for a photographic restoration system called Photopages (later PhotoWonder). He has managed the engineering, development, sales and marketing teams of this project since its inception. During 1999 Ian developed the franchise in the United Kingdom and completed the franchise package including authoring the manuals and support marketing material.

The growth of the photo restoration business was rapid and in 2002 a landmark sales and distribution agreement was signed with Creekside LLC in USA. Ian established large computer studios in New Zealand, China and India using his software and techniques to service the growing market developing in the USA. Walgreens, Walmart, CVS, Albertsons, Best Buy and many other major chains now use this photo restoration service exclusively. Further distribution agreements were completed for Japan, Asia and Europe and PhotoWonder is now the world's largest photo restoration company.

In 2003, Ian began work on Tooth-pix, a professional imaging service providing a comprehensive yet simple method for dental photos to be altered to show predictive outcomes for cosmetic surgery. Ian pioneered the manipulation software and techniques for Tooth-pix and has worked closely with key dentists in NZ to develop a professional on-line interface for all dentistry.

2004 saw the release of Ian's unique real estate system, Realty-Pix. Similar to Tooth-pix, it provides the opportunity for property buyers to explore the potential of a property prior to investment, encouragement for vendors to better prepare the property for sale and can inexpensively explore make-over options when considering planned home improvements. Ian has worked closely with key people within the real estate industry to advance the use of more effective marketing techniques.

Ian also is actively involved with and collaborates in developing complete business solutions, designing and building comprehensive internet and engineering complex software solutions for a wide range of commercial disciplines. These have included web-sites for publishing houses, software for asset management systems, high profile sites for automotive dealerships and real estate listing sites. In 2009 he developed a complete business plan and infrastructure to support real estate sales by lawyers.

Ian is now a director of Alexander & Co., a leading surveying company in New Zealand specializing in building enclosures and providing market leading solutions, advice and assistance in all aspects of building surveying, dispute resolution, cladding design, architecture, maintenance planning and building restoration. He is also a consultant with company providing management services.

Prior to and during his tenure in contact lens design and manufacture, Ian had a long career in live theatre production working with most major productions at His Majesty's, St James and Playhouse/Mercury Theatres in Auckland. He also worked and gained engineering experience at the NZED Quay Street workshops, qualified as a baker and taught music for a number of years.

Ian speaks regularly at conferences, seminars and in the community promoting and discussing developments in digital technology and business, tutors a number of imaging workshops and offers private tuition in Photoshop. He also offers tuition and runs seminars on the iPad.

For a number of years Ian has been providing comprehensive genealogy research and authoring services. He has researched, written and published a number of history books for many New Zealand families. Ian is a keen bridge player, enjoys reading, music composition and has a significant interest in mathematics, history and genealogy
